

Coca Cola Enterprises, Inc.

Restack & Strategic Program/Database for 2500/3200 Wildwood

Project Name:

Coca Cola Enterprises, Inc.

Square Feet:

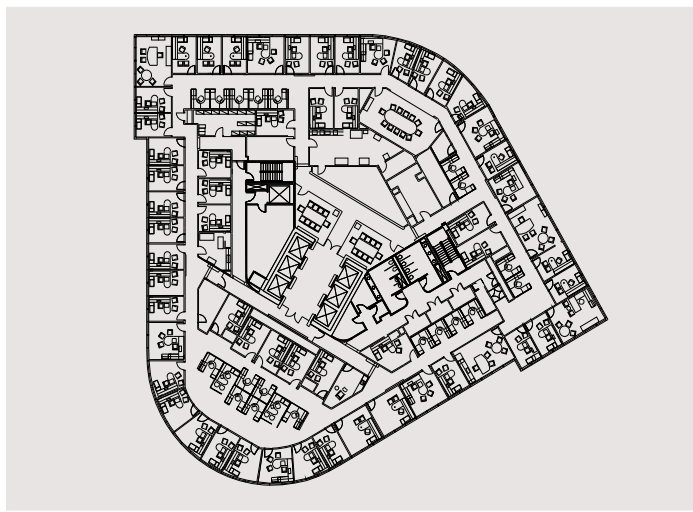

2500 Wildwood - 300K

Location:

Atlanta, GA

Date Completed:

2009

Project Description: Sempai assisted client plan, schedule, collect, design and compile a Master Database of all existing, relocated and new employees to be housed at both CCE 2500 and 3200 Wildwood facilities due to recent restructuring of Coca Cola Enterprises, Inc. The Master Program database included approximately 1200 employees in 16 departments: by name, rank, reports to, department, existing location, and proposed new location.

Approach: • The detailing planning enabled CCE to make corporate real estate decisions based on fact instead of assumptions.

Results: • SSI was able to meet client's schedule to begin design and planning of the facility.
