Date Completed:

2009

Project Description: Sempai assisted client plan, schedule and manage all new/existing/stored FFE, AV, IT and Move related items for a 90% occupied facility under construction. SSI included intermediate swing space moves required to clear area for the construction, totaling 8 moves, with the final move phase including approximately 550 employees over a single weekend.

- Approach:**
- SSI required bi-weekly meetings with end-user facilities representative, IT, security, Landlord, several furniture dealerships and moving company to fully plan the detailed moves.
 - SSI reported status to the core project team on actions during planning and implementation of the move.

- Results:**
- With detailed planning, Coca Cola Enterprises, Inc. was able to meet original project schedule
