**Project Description:** GE Energy is one of the world's leading suppliers of power generation and energy delivery technology with 2002 revenues exceeding \$22 billion. In 2000, GE Energy relocated from New York to Atlanta. GE retained project management services to manage the build-out and furnishing of its new \$26.5 million, 256,000-sf headquarters located in northwest Atlanta. The project was completed in 2000.

**Approach:** • The tenant improvements were designed by the tenant and constructed by the landlord with Project Management oversight.

**Results:** • Project Management adapted the existing structure to GE's special requirements, including, comprehensive food service facilities, call center operations, main data center facilities, & conference center.

- Project Management supervised the landlord's construction of the tenant improvements.
- Project Management oversaw the procurement and installation of all interior furnishings, audiovisual equipment, communications technology infrastructure, and security systems.
